PIERCE COUNTY SURFACE WATER MANAGEMENT (SWM)-
By-pass pumping

SOUTHWEST SUBURBAN SEWER DISTRICT - Digester cleaning in
Normandy Park

SPECIALIZED EQUIPMENT

- The unique characteristics of our pumps makes it possible to pump "liquids" so thick and viscous that you may not have considered using a pump for such applications.

PROVEN RESULTS

- Long list of Successful jobs
- Customers treated like partners
- Cleaned digesters from 10,000 to over 1.2 million gallons
- Pumped 10 million gallons of water per day
- Trucked over 1 million gallons of water per day during floods
- Cleaned Clarifiers over 3 million gallons

SAFETY RECORD

- No injuries on any industrial pumping job
- NW Cascade intrastate Experience Modification Rate for year 2000 is an outstanding .5456

TESTIMONIAL

Sue Lawrence - Superintendent ,Wastewater treatment plant, City of Pendleton, Oregon

" We cleaned our digester 13 years ago. After a lot of labor, time and pumping challenges, it took us 4- 6 weeks to complete the job. This time we contacted Flohawks. They were very responsive. It only took them one week to set up, pump and clean our digester. We were very impressed! They saved us money on labor and time with the right equipment and experienced people. Bottom line, they got the job done quickly, safely and efficiently which allowed us to do what we do best... manage a waste water treatment plant."
